## Tanker truck and dosing lime

Tanker truck &  
dosing lime  
TSAMPOS LTD

Inside the tank, the lime is transferred to the pump nozzle with a transport screw. It also includes an internal system to curette the tank wall.

All the motors as the transport screw, scraper system, pump and reel have hydraulic movement. Hydraulic opens and closes also the gate filler material.

Particular attention is given to the appropriate speed and quality of hydraulic motors.

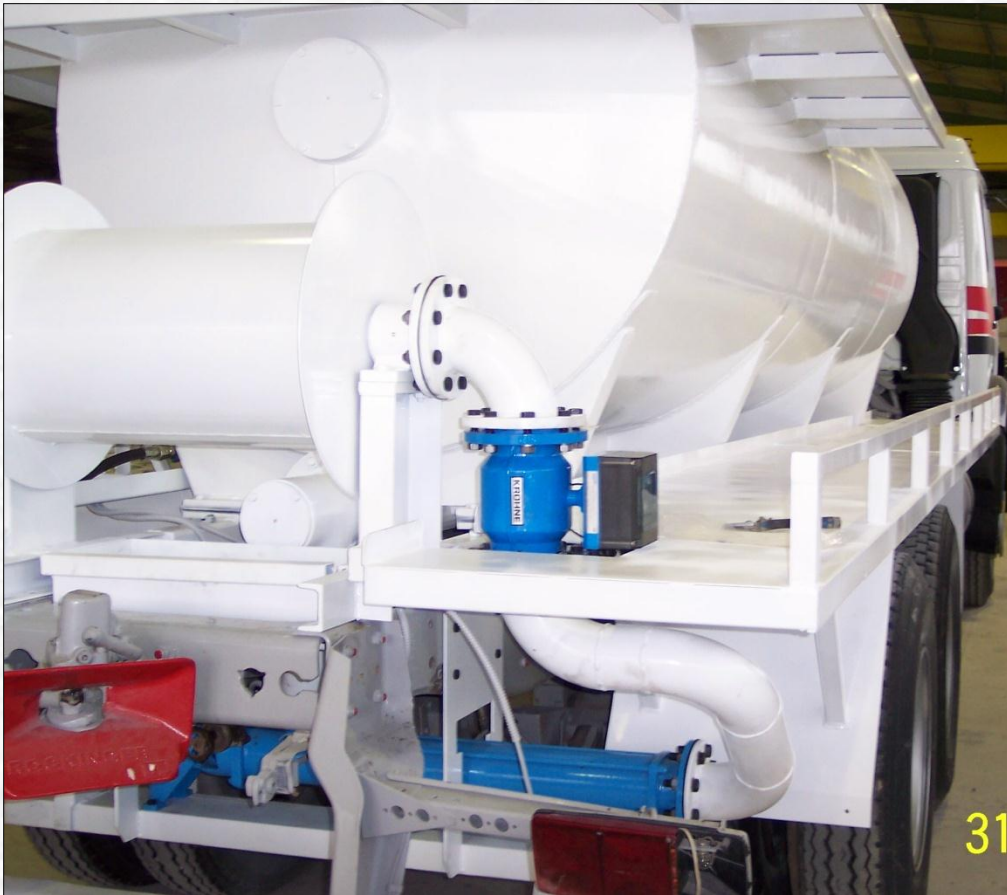

*Flow meter of lime dosing  
German origin*

Operated  
hydraulic drive

*Dosing pump and feeder rubber reel 40  
meters.*

**We offer alternative and effective solutions such as:**

- ✓ The tank truck with all equipment mounted on a truck provided by the customer
- ✓ Full equipped including a tank and the vehicle chosen by the customer
- ✓ Facilitations by monthly leasing of payment (Leasing) upon arrangement by bank
